Navodila:

Poštevanke si natisnemo na trši papir in izrežemo. Nato naredimo ustrezno veliko tršo mapico, v katero bomo spravili kartončke. Mapico izrežemo tako, da de najprej pokaže račun, nato pa rezultat. Počasi vlečemo kartončke iz mapice, ugibamo, kakšen je rezultat računa in nato preverimo. Na prazne kartončke si lahko napišemo še poljubne račune.
